UNDER GLASS AWNING G100

Scan online and
determine the Price!

www.markisenshop.eu

The Under Glass Awning G100 is ideal for the conservatory or the patio roof. It impresses with its ease of care and is also well protected from the weather.

The assembly is quite simple, and it also scores with the price. For this reason, under-glass awnings are a popular form of sun protection to set a highlight in the conservatory.

Unique properties

Our Under Glass Awning G100 has its own cassette shape. The basis of the guide is the zipper technique.

The system is ideal for conservatories, patio roofs, skylights and large skylights.

No sides hanging down thanks to the awning fabric that is enclosed all the way round

Taut fabric that visibly sags less No incidence of light between the fabric and the guide

Regardless of the application, the system can be powered by an electric motor via a wall switch, operated by remote control or app.

Maximum Dimensions (Width x Drop): 6000 mm x 4000 mm
Housing Colour: RAL 9010, RAL 7016 Structure, Special colour
Connectable: No
Suitable Awning Fabric: Acrylic

Wigabox Conservatory Shading

Scan online and
determine the Price!

www.markisenshop.eu

With the **Wigabox Conservatory Shading**, you get aesthetic shading for your skylight, conservatory and other glass roofing. The external sun protection scores above all because it protects the rooms from overheating.

At the same time, this also means that you can make optimal use of the air conditioning to keep the rooms cool.

*Furthermore, the **Wigabox Conservatory Awning** is translucent, even if the sun protection intercepts the dazzling rays of the sun.*

Available in numerous colours, you can adapt your awning perfectly to the room colours so that a harmonious picture is created, and the sun protection is hardly noticeable.

*The construction of the **Wigabox Conservatory Awning** consists of high-quality powder-coated Aluminum and is in the RAL colour white available as standard.*

*Of course, if you would like a different colour for the construction, that's no problem. Just talk to us, we will be happy to help you choose the colour of your **Wigabox Conservatory Awning**.*

Zipper system encloses the cloth completely and thus prevents the cloth from sagging

Light and heat resistance

Various mounting options

Timeless and elegant Design

Maximum Dimensions (Width x Drop): 6000 mm x 5000 mm

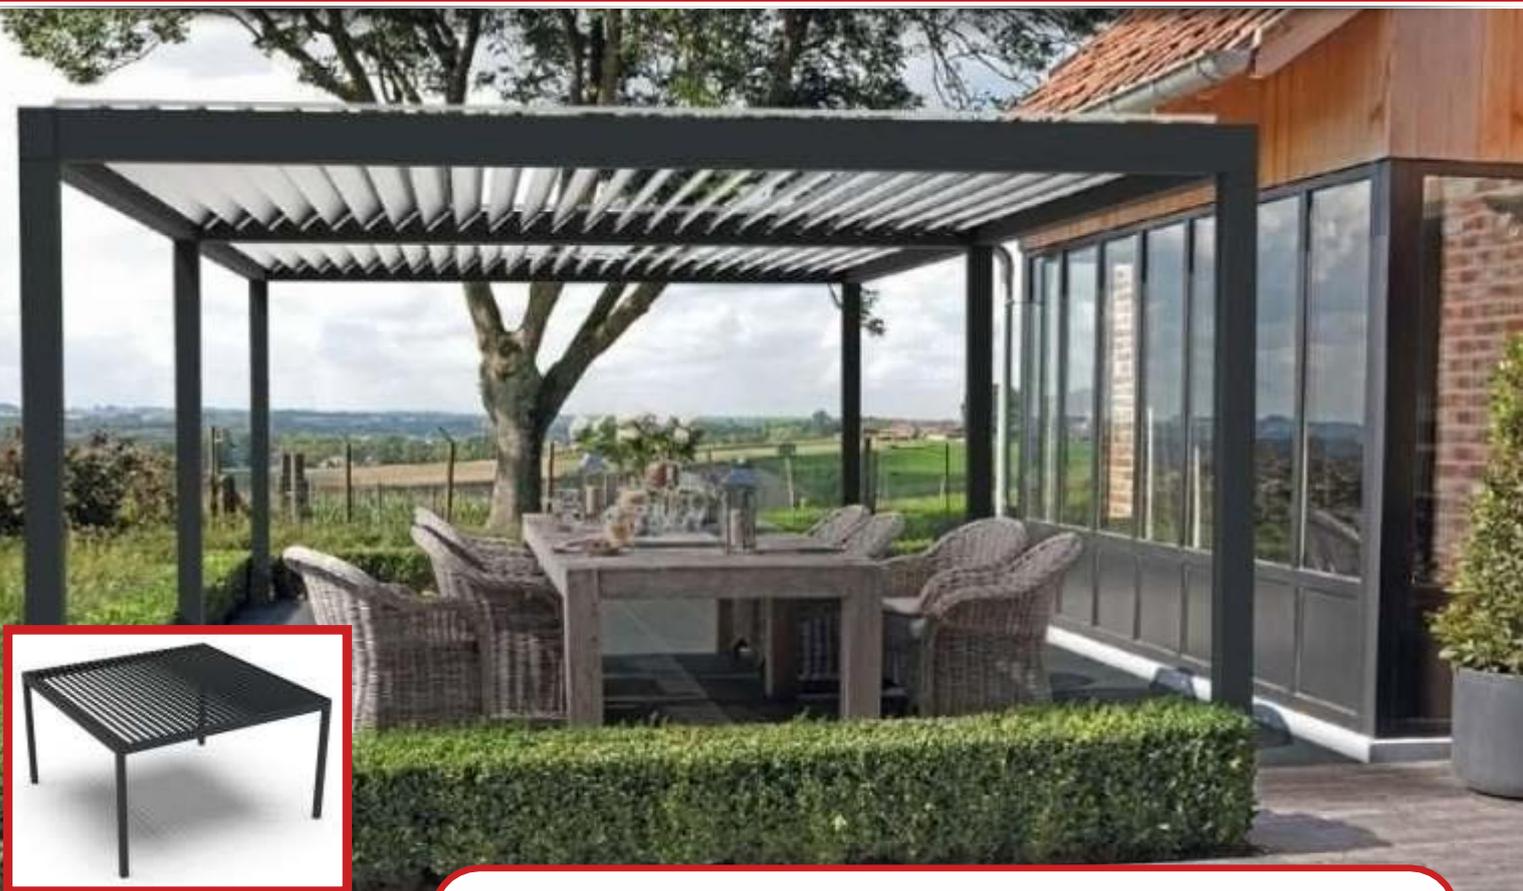

Housing colour: RAL 9010 RAL 7016 ST.

Connectable: yes

Suitable Fabric: Acrylic, Screen.

GÖRRES

Side Awning SM S-250

No more wobbly wooden fences tarpaulin bowling around.
Görres brings a breath of fresh air into your garden.

And with the real eye-catcher:

With a sporty design and high-quality workmanship, the **Side Awning** is guaranteed to be a real highlight on your patio. A side awning from Görres offers several technical advantages, which we would like to briefly explain to you:

Our awnings consist of a very robust, powder-coated aluminium housing. The awning fabric itself is made from a premium acrylic material, weighing 320 grams. Also, completely Teflon-coated and therefore dirt-repellent. All in all, well protected from environmental influences. Two retaining plates ensure easy and uncomplicated installation of the **Side Awning**.

The extremely stable quick-action clamp-included in our scope of delivery, of course-has a rod height of 126 cm!
We designed the quick-action clamp so that you can mount it directly above the floor. With us, you are spoiled for choice. Choose your favourite shade from over 160 colours or match your new awning to your surroundings.

Maximum Dimensions: 2500 (h) x 4000 mm (w)
Frame Colours: Pure White glossy (RAL 9010) or Special colour.

PERGOLA AWNING CUBOLA

Scan online and
determine the Price!

www.markisenshop.eu

The Cubola Pergola Awning scores particularly well with the various installation options. This sunshade means maximum flexibility and is perfect for anyone with a large patio or garden to call their own. By coupling individual systems, you also have the option of significantly expanding the shading area.

But not only for private individuals, also in the gastronomy. This elegant pergola awning is very popular in gastronomy because it is flexible and extremely elegant.

MOUNTING OPTIONS FOR THE CUBOLA PERGOLA AWNING

The Cubola Pergola Awning is available in two different models. On the one hand as a freestanding pergola awning with four support posts. On the other hand, we also offer the Cubola Pergola Awning with two support posts for wall mounting.

You can also couple the garden awning in order to obtain a larger shading area on the terrace or in the garden. Above all, the freestanding version of the awning is ideal for garden parties, for shading the pool or sandpit.

Maximum Dimensions (Width x Drop): 6000 x 4500 mm
Frame colours: Pure White glossy (RAL 9010),
Anthracite gray ST (RAL 7016) or special colour.

PERGOLA AWNING PIAZOTERRA®

Scan online and
determine the Price!

www.markisenshop.eu

With the **Piazoterra® Pergola Awning**, you get an extremely flexible patio roof, which is equipped with an integrated pergola awning. Not only in gastronomy, but also in the private sector you have such a noble shading, which becomes an absolute eye-catcher.

This awning for the terrace and garden is aesthetically pleasing, technically mature, and innovative.

Through the impregnated awning fabric, which is made of acrylic or screen fabrics, on the one hand you have the perfect shady spot and on the other hand you are optimally protected from the rain.

If you use the **Piazoterra® Pergola Awning** on the terrace, the rooms behind it are also protected from overheating.

This means you have less air conditioning and save money at the same time. The garden and terrace awning runs over two guide rails. They are stabilized by a transverse support profile and two sturdy aluminium posts. It is anchored with ground sockets to ensure stability.

Up to a width of 600 cm and a projection of 500 cm is the **Pergola Awning Piazoterra®** available.

Maximum Dimensions (Width x Drop): 6000 x 5000 mm
Frame colours: Pure White glossy (RAL 9010),
Anthracite gray ST (RAL 7016) or special colour.
